Wegner CPAs Named to The INSIDE Public Accounting's 2019 All-Stars Specialized Niche Firms

Madison, WI – We received some very exciting news. Wegner CPAs has been named to INSIDE Public Accounting's (<http://insidepublicaccounting.com/>) 2019 All-Stars List in Niche Specialization as one of the top five firms for Not-for-Profit services. Based on a survey of approximately 550 of the largest CPA firms in the US, excluding the Big 4 and national firms, the firms that made the list derive a higher percentage of their revenue from specialty practices than all other participating organizations. For Wegner CPAs, the nonprofit revenues as a percentage of total firm revenue are in the top five firms of all that took part in the survey.

"We take great pride and are very passionate about serving the nonprofit community. Our specialized services stem across all departments and locations of our firm – from audits, Form 990 preparation, consulting, and outsourced accounting solutions. Many of our leaders and team members have devoted their careers to developing an expertise in this area. We truly go beyond the numbers and have built a strong educational program for our nonprofit audience to help them achieve their mission," stated Glenn Miller, CPA, CGMA, Managing Partner.

About Wegner CPAs
