

We Now Offer Made to Order Sneeze Guards & Cubicle Panel Extenders

Proudly Made in the USA

Sneeze Guards & Cubicle Extenders

Here at Office Furniture Warehouse, our goal has always been to look out for the best solutions and value for our customers. With the way our country has drastically changed these past few weeks we went back to the drawing board to figure out how we can best help our customers create a safe and comfortable environment for their employees and their customers.

We now offer beautiful FREE STANDING Plexiglas "Sneeze Guards" which can be custom ordered to fit your service counters, conference tables, work stations, or high traffic areas.

In this product line we also offer CLAMP ON panel extenders for cubicle panels 1-3" thick. This will create a safer environment for your employees by extending the height of your panels.

I wanted to put my customers at the top of the list since this product is in high demand and moving quickly. Do you or someone you know have any need for this type of product? If so, I would be happy to provide more information!

Hope you and your family are staying safe and healthy :)

Built In House At OFW's HQ in Wisconsin

Each of our cubicle extenders or sneeze guards are cut to size, the edges are flame polished, aluminum brackets are machined and polished in house. We have cut out the middle man to pass along savings to you. Our sneeze barriers come in at an average of 30% less than others.

Cubicle Panel Extenders

Perfect for low-wall cubicles and open plan workstations. Minimize unnecessary direct face-to-face contact. Custom clamp on brackets eliminate the need to drill holes into panels.
