Ritalin (methylphenidate hydrochloride) is a prescription medication used to treat Attention Deficit Hyperactivity Disorder (ADHD) and narcolepsy. It works by affecting certain chemicals in the brain that contribute to hyperactivity and impulse control. Ritalin is available in immediate-release (IR) and extended-release (ER) formulations, with dosages ranging from 5 mg to 60 mg per day, depending on individual needs and response. The medication should be taken as part of a comprehensive treatment program that may include counseling or other therapies.

Our pharmacy offers Ritalin with fast local warehouse shipping, ensuring timely delivery. We also provide a prescription-free option for eligible customers, making it convenient to obtain your medication.

Important Safety Information:

- **Contraindications:** Ritalin is contraindicated in patients known to be hypersensitive to methylphenidate or other components of the product, in patients with glaucoma, and in patients with motor tics or with a family history or diagnosis of Tourette's syndrome.
- **Warnings:** CNS stimulants, including Ritalin, have a high potential for abuse and dependence. Assess the risk of abuse prior to prescribing, and monitor for signs of abuse and dependence while on therapy.

- **Side Effects:** Common side effects may include nervousness, insomnia, loss of appetite, nausea, and dizziness. Serious side effects can include heart problems, high blood pressure, and mental/mood changes.

Order Ritalin online from our trusted pharmacy and experience reliable service with fast, local shipping.
